

Str. 767

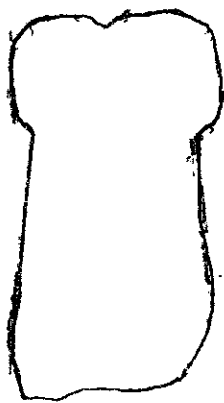

Str. 767

2/20/28

Looks like someone excavated a burial without knowing it in Str. 767; Unit 892, 296; Levels 3-5 (Lots 15, 682).
Were 3 levels included in the same lot?
I have no idea. The remains are well preserved though fragmented. I suspect that the fragmentation was increased by the uncautious excavation.
The remains do not appear to be a complete individual though the TP probably only caught part of the burial.

Stone Phallia

Like the one in Str. 615 at Str. 188
of Nixon Creek. Found in Lot 15, 144
Z-767-888, 316-1

14 cm long, 8.1 cm wide (max), and
4.89 cm thick.

Appear to be associated with
columnar shells.
